VENTURA[®]

XTERIOR WPC KLADS

Ventura Xterior WPC Klads are premium-quality exterior solutions designed for façades, balconies, and ceilings, combining durability with modern aesthetics. Available in 3 distinct clads designs and elegant Teak & Walnut finishes, they cater to diverse architectural styles. Engineered for outdoor performance, they offer heat resistance, waterproof protection, UV resistance, anti-fade technology, and termite-proof strength. Easy to install and maintain, these eco-friendly klads ensure long-lasting beauty with minimal effort, redefining exterior spaces with sustainable luxury and innovation.

INSTALLATION INSTRUCTIONS

01. Install the framing profile / Aluminum channel horizontally using expansion screws, with a spacing of 300 mm between the framing profile / Aluminum strip

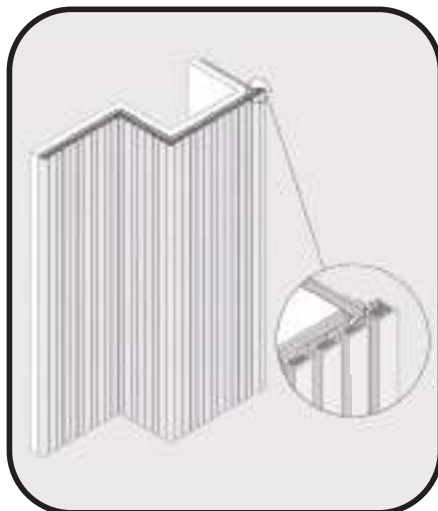

02. Use metal clips to install and secure the exterior corner and corner profile.

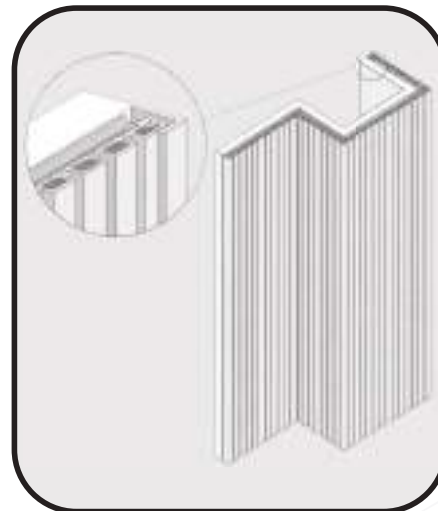

03. Install the wall panels sequentially from both sides, securing them with metal clips.

04. Cut the wall Panels to fit the remaining length.

05. Install the corner trim on the other side.

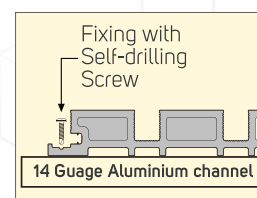

06. Complete the installation of all wall panels and finish with corner profile.

Double Aluminum channels are needed at the end-to-end joint between two cladding boards to ensure that each board is supported by aluminum channels.

Leave an expansion gap of about 8 mm between the ends of two cladding boards to avoid the risk of cracking and warping.

Always pre-drill pilot holes before driving screws to avoid damage to the cladding board.
